

Whitepaper:

1. Introduction

HTTCoin is a next-generation digital asset designed for the travel industry. Our mission is simple: make global travel easier, smarter, and more rewarding. With HTTCoin, travelers can book hotels, flights, and activities while earning generous rewards that can be used worldwide.

HTTCoin connects travelers, airlines, hotels, and tourism companies into one unified ecosystem .

2. Vision & Mission

Vision

To become the world's leading travel-payment token that brings transparency, savings, and rewards to every traveler.

Mission

- Provide fast and secure payments for travel services
- Give users high-value rewards and cashback
- Build partnerships with airlines, hotels, and tourism brands
- Create a global blockchain-powered travel ecosystem

3. The Problem

Travelers face major challenges today:

- High fees for international payments
- Limited reward systems
- Slow refund processes
- No global loyalty program
- Lack of transparency in booking systems

HTTCoin solves these problems using blockchain technology .

4. The Solution:

HTTCoin Ecosystem

HTTCoin offers a complete ecosystem for travel:

✓ HTTCoin Payment

Pay for flights, hotels, and tours instantly with low fees.

✓ HTTCoin Rewards

Earn up to 4%–8% cashback on bookings.

✓ HTTCoin Debit Card

Use your token worldwide for:

- Flights
- Hotels
- Restaurants
- Shopping

✓ HTTCoin Marketplace

Buy or sell travel services inside the ecosystem.

5. Token Information

- Token Name: HTTCoin
- Symbol: HTT
- Total Supply: 1,000,000,000 HTT
- Decimals: 18
- Blockchain: Binance Smart Chain
- Minting: Disabled (fixed supply)

6. Token Distribution

- 40% — Public Sale

Available for public investors during Pre-Sale and Launch.

- 20% — Travel Rewards

Used for cashback, bonuses, and long-term rewards.

- 15% — Team (Locked 2 Years)

Ensures long-term stability and trust.

- 10% — Marketing

For global campaigns, influencers, and promotions.

- 10% — Liquidity Pool

Provides strong exchange liquidity.

- 5% — Partnerships

Airlines, hotels, tourism agencies, and global travel brands.

7. Burn Strategy

To increase token value and reduce supply:

Burn 10% before launch

Burn tokens from transaction fees

Strategic burns based on ecosystem growth

This creates long-term scarcity and price support.

8. Roadmap

Phase 1 – Foundation

- Smart contract creation
- Website & dashboard
- Token testing
- Pre-launch marketing

Phase 2 – Public Sale

- Token launch
- Listings on DEX
- Start of Rewards Program

Phase 3 – Expansion

- Global partnerships
- HTTCoin Debit Card release
- Booking engine integration

Phase 4 – Global Travel Ecosystem

- Add hotels, airlines, and travel agencies
- Expand to more countries
- Full marketplace activation

HTTCoin will continue evolving with user needs and global market growth.

9. Utilities of HTTCoin

HTTCoin provides real value:

- Book hotels & flights
- Earn cashback rewards
- Pay for travel services
- Use the debit card globally

- Access VIP travel benefits
- Stake tokens to earn extra rewards

10. Why HTTCoin?

- Real-world utility
- Strong reward system
- Worldwide usage
- Easy to understand
- Backed by transparent blockchain technology
- Designed for millions of travelers every year

11. Conclusion

HTTCoin is not just another crypto.

It is a complete travel financial ecosystem that connects millions of people, businesses, and destinations.

With powerful rewards, global usage, and long-term growth potential, HTTCoin is ready to change the future of travel forever .
